Students of the Month - April 2023

K-2: For playing nicely with others and being kind to her classmates. She is also receiving this award for her enthusiasm towards learning and the hard work she puts into reading and writing. Great job!

Grades 3-5: For working hard at all he does and being so resilient. He is a positive student who is quick to help his classmates and invite everyone to play with him.

Grades 6-9: For taking initiative to catch up after being away and his curiosity. He always brings questions to our discussions.

Grades 10-12: For taking initiative in his education.

"Success and Achievement for Every Student."

Home Alone Canada Safety Council

After taking this course, children will feel confident they can stay home alone. Children will feel safe knowing they have the skills to care for themselves.

Learning Objectives:

Getting ready to have your child stay at home alone is a big milestone for families. The aim of this course is to help get children ready for this. Using the supplied handbook, families can develop a personal safety and injury prevention plan that is tailored to meet their unique needs.

Suggested age of student is 10 years old or turning 10 within one month of course completion.
